

<b>HENDERSON COUNTY SCHOOL BOARD POLICY</b>	<b><u>SCHOOL/COMMUNITY RELATIONS</u> Parent/Booster/and/or Support Organizations</b>	<b>330</b>
---	--	------------

## **PARENT/BOOSTER AND/OR SUPPORT ORGANIZATIONS**

The Board of Public Education values the support and contributions of parent and booster organizations in the schools. Parents/legal guardians/legal custodians and individual citizens are encouraged to become active in organized support groups for the schools and the School System. All activities of the support groups are to be consistent with the educational mission, goals, and objectives of the individual schools and School System.

Any funds raised by the support organizations are to be spent in support of school programs with the approval of the Principal. If these funds are not channeled directly through the individual school accounts, the organization is required to file an end-of-school year financial report with the Superintendent of Schools. That financial report is to include a statement of all resources and expenditures with an ending fiscal year balance.

Furthermore, no support organization is authorized to support the payment of salary or other compensation of any employee of the Henderson County Public Schools by a direct or indirect manner. However, a support organization may contribute funds to a school to defray the cost of providing an enrichment activity for students.
