WHAT IS PROJECT GLAD[®]?

We are an award-winning professional development model that transforms language acquisition into effective, fun, and exciting teaching techniques.

Educators leave our trainings with:

- The capacity to value our diverse and vulnerable populations as assets in the classroom
- Tools to engage students in grade level content regardless of reading level or English proficiency.
- Strategies to foster a risk-free, cross culturally responsive environment where students can acquire academic language, literacy, and 21st century skills.

PROJECT GLAD[®]
REGISTRATION FORM

Are you a district leader who wants to schedule a training in your area or learn about Train the Trainer options? Contact Simone Wertenberger sgwertenberger@hcpsnc.org

WHAT OUR TEACHERS SAY

"Throughout the training one thought kept going through my mind, this is not just for my ESL students but for all my students. Every student can benefit from these strategies. Every teacher can elevate their teaching using these strategies."

I am taking away skills and strategies I can use immediately as a BT1 to ensure the cultural diversity in my classroom is respected and is incorporated into the learning and success of EVERY student!!"
