

## WHAT IS PROJECT GLAD®?

We are an award-winning professional development model that focuses on language acquisition through effective, fun, and engaging teaching strategies.

**Educators leave our trainings with:**

- The capacity to value our diverse populations as assets in the classroom
- Tools to engage students in grade level content regardless of reading level or English proficiency.
- Strategies to foster a risk-free, cross culturally responsive environment where ALL students can acquire academic language, literacy, and 21st century skills.

## FOUNDATIONS TRAINING

Pricing: \$1000 per NC participant  
FREE for HCPS Employees

## WHAT OUR TEACHERS SAY

"Throughout the training one thought kept going through my mind: this is not just for my ESL students but for all my students. Every student can benefit from these strategies. Every teacher can elevate their teaching using these strategies.

"I am taking away skills and strategies I can use immediately as a first year teacher to ensure the cultural diversity in my classroom is respected and is incorporated into the learning and success of **EVERY** student!!"
