Agenda Topic #1: Work on Goals for SIP

60 Minutes

Discussion: School Improvement Plan shared with team members. Want to align what we have already established and what is contained within our mission and vision document with the goals, strategies. This is a working document so we can add to and take away if necessary. Small groups will break out and work on each of the four categories.

Changes were added and highlighted. Voting will be later in the month and then approval by vote for entire school.

Action Items: Next month we will discuss goals and whether or not they have been met. We will look at strategies to include to make a difference based upon feedback. We will also look at the three subgroups previously identified as well.
